*This summary is incomplete in that reports from all stations are not included. Only larger stations, or stations representative of a geographical area are included. Fluctuations in strength at some stations, or in some areas may be the result of not having received all of the reports from those stations or areas at the time this summary is published.

Note: Four (4) cases of meningococcic meningitis were reported from the following-listed stations:

Camp Barkley, Tex. - 1 case
 Fort Bragg, N. C. - 2 cases
 Camp Forrest (27th Div.) - 1 case (July 5)

(M) Stations so marked are either increased in strength because of being the base of maneuvers in that area, or are decreased because part of the command is absent on maneuvers
